Elio J Barrera has not gotten the best out of this filly. Finished in the back half of the field last time - not a terrific sign.

Is a contender; trainer has sported strong figures (37 starts, 27% wins) for two year olds with some good returns for better. Gamblers may be making a unsafe move with this trainer working with first time starters (26 starts, 4% wins). His Dam's foals have not done well in their 2yo season (9 starts, 0% wins, -100% ROI).

Lately, this rider and conditioner haven't been winning when they team up together. Have to be leery with mounts trained by Rosa E Ramirez right now - on a bit of a cold streak. Faltered down the stretch last time around the track - may do the same thing today.

| Trainer/Horse combination leaves much to be desired (9 starts, 0% wins, -100% ROI). This less than sharp equine didn't finish near the top of the field last out. Tough to play this animal with this trainer's lack of recent good fortune.                                                                                                                                                                                          |                                                        |                                                          |                                                                                                                                             |                                                                                            |                                                           |                              |

A good performance last time around the track. A campaigner coming back this quickly after a nice race is a good omen.

☞Timothy Thornton should put some nice dollars in your pocket with this animal and his power rating. ☞Lost ground in the stretch in the last event. ☞Didn't finish near the front of the field last affair - might have to expect more of the same.

Just not worth betting - conditioner not winning many races these days. This trainer has not produced good returns with entrants moving up in class (57 starts, 9% wins, -48% ROI). Looked like he was in good form last outing - hasn't been near the track since then though.
