Not investing on this animal after the last undertaking. Didn't display enough guts in the lane last time. This trainer has horses that have consistently produced very good board hit percentages when moving down in class (25% wins).

JG Torrealba hasn't been on a winning streak lately. Didn't finish near the top of the field last event - might have to expect the same result. This rider/handler combo is cold right now - not a high win percentage together.

Expecting this mount to run a big race today. Didn't finish near the front of the field last event - might have to expect similar results. This filly faded down the homestretch - not a good sign.

A good effort last time out. Trainer stats with recent claims have been sad (22 starts, 5% wins, -82% ROI). Edgar Perez and Jose M Castro haven't been a winning combination recently.

His trainer has not done well with horses moving up the class ladder (21 starts, 5% wins, -85% ROI). Didn't finish near the front of the field last event - might have to expect the same result. The rider and trainer duo have a positive return on investment when they team up.
